

Judith Gilmore HB 5144

I am writing to ask for your support of Raised Bill 5144. I have a sister-in-law who is an adoptee. Her only child, a son, died of Nieman-PickC, a genetically transmitted disease. She, herself, is now terminally ill. She has had absolutely no medical history to refer to. Of course she tried searching. Of course to no avail. Her adopted parents, wonderful people, tried to help. They could find nothing and have passed on. Three years ago we found out that one of our brothers had fathered a son about 55 years ago. We are trying to find him. I find it hard to believe that in this day and age and in this country that there are people denied a basic right. How many people have to die not knowing where they came from?

Thank you for your consideration,
