

Maiary Colon

Hello my name is maiary colon. I was adopted in 1988 to a wonderful couple. They have never treated me any less then a parent should ! But once I found out I was adopted I had 1001 questions but we never spoke about it. Having access to my original birth certificate I believe would help me understand who I am often times I find my self wondering who I am, what I am. I believe having My original box would close that chapter of my life and help me move forward. Thanks for this opportunity.
