

Fellow citizens,

There are approximately **6 million** adult adopted persons in the US, many of whom will go to their graves without **ever** seeing the faces of their mothers and fathers. They will **never know** their aunts, uncles, cousins, nieces and nephews. The archaic practice of keeping a **fully grown, legal adult** from the information on their original, REAL birth certificate is both **cruel** and **inhumane**. Imaging never knowing YOUR OWN MOTHER???

PLEASE HELP millions of citizens who are suffering because of this **barbaric, long out-dated legislation**.

THANK YOU!
