PETITION AGAINST HB 5326

PHYSICIAN ASSISTED SUICIDE

MICHAEL C. CULHANE
 EXECUTIVE DIRECTOR

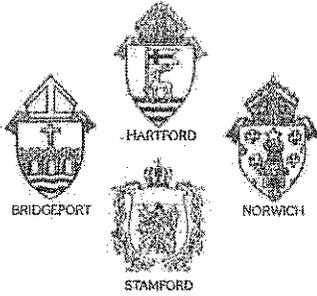

DEACON DAVID W. REYNOLDS
 LEGISLATIVE LIAISON

To: Members of the Public Health Committee

We, the undersigned, urge you to oppose HB 5326, which would legalize physician-assisted suicide in the state of Connecticut. Currently, only three states, Oregon (1994), Washington (2008) and Vermont (2013), have statutes providing for physician-assisted suicide. We do not believe Connecticut should be the fourth state to implement this terrible public policy. The concern of the state legislature should be to improve the quality of care of the elderly, disabled and seriously ill, seeing that they receive true compassion and support during difficult times. The legislature should not legalize a practice that may well open up a Pandora's box for abuse of the most vulnerable in our society. Any rights that an individual may have concerning their healthcare is far overshadowed by the potential negative impact on our society of legalizing suicide. In a society that legalizes suicide, the right to die may soon become the responsibility to die for the sick, the elderly and the disabled. Please oppose physician-assisted suicide in Connecticut.

PETITION AGAINST HB 5326

PHYSICIAN ASSISTED SUICIDE

MICHAEL C. CULHANE
 EXECUTIVE DIRECTOR

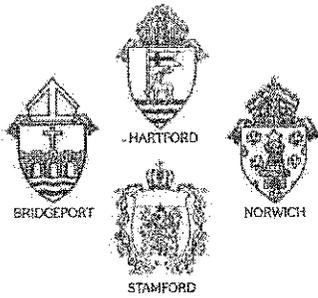

DEACON DAVID W. REYNOLDS
 LEGISLATIVE LIAISON

To: Members of the Public Health Committee

We, the undersigned, urge you to oppose HB 5326, which would legalize physician-assisted suicide in the state of Connecticut. Currently, only three states, Oregon (1994), Washington (2008) and Vermont (2013), have statutes providing for physician-assisted suicide. We do not believe Connecticut should be the fourth state to implement this terrible public policy. The concern of the state legislature should be to improve the quality of care of the elderly, disabled and seriously ill, seeing that they receive true compassion and support during difficult times. The legislature should not legalize a practice that may well open up a Pandora's box for abuse of the most vulnerable in our society. Any rights that an individual may have concerning their healthcare is far overshadowed by the potential negative impact on our society of legalizing suicide. In a society that legalizes suicide, the right to die may soon become the responsibility to die for the sick, the elderly and the disabled. Please oppose physician-assisted suicide in Connecticut.

Vote 'No' on HB 5326
