

James Stringer HB 5326

Dear Connecticut State Representatives,

I am writing to state that I oppose House Bill 5326 and I am asking you to oppose it, too.

I am someone who is strongly opposed to death penalties because I believe that our government should not be in the execution business. Any time our government decides that a certain group of people can be put to death, we start descending down a slippery road.

I ask that you do the right thing and defend the life and dignity of all people.

Thank you.
James Stringer
