

Joan Geetter 5326

I am writing to urge passage of House Bill 5326, Compassionate Aid in Dying. Without the ability to direct one's own end-of-life medical care, many of us may be unnecessarily condemned to a prolonged and painful death. This bill is a well-crafted and sane alternative, merely making available to Ct residents rights already possessed by citizens in other states and countries. Please put Connecticut in the progressive column on this issue. Joan Geetter, 14 Shibah Way, Bloomfield Ct 06002 Phone 860-233-6796
