

Julie Dimmock

HB 5326

To whom it may concern:

Please support HB 5326. I am a retired nurse, and I believe that people have a right to die with dignity....Sometimes Hospice is able to control people's pain: other times they are not able to. When a person is deemed "terminal" with no chance of recovery, then, I believe, that person has the right to die as he wishes. It is NOT up to the medical profession to prolong the painful, imminent death of a patient....Who gave the doctor the right to choose what HE wants, not what the patient wants? Supporting HB 5326 is the right thing to do.

sincerely,

Julie Dimmock
