

Lynne and Harold Mayer
HB 5326

We believe that freedom to choose how to die, with dignity and without undue pain, are basic to our right to live without fear. Right now, as we enter the December of our years, our greatest fear is that our bodies and minds will collapse and we will be powerless to ask for aid in dying peacefully. Please help us achieve this peace of mind at least in part, by moving along HB5326 expeditiously. You too will grow old someday, and will bless those who made it easier for you when your time has come. Lynne and Harold Mayer
