

Mrs. B.B. Brown
HB 5326

Honorable members of the Public Health Committee:

thank you for the opportunity to submit testimony in strong support of HB5326, an act concerning aid in dying for the terminally ill. It is important to me because I have had many friends and relatives who spent too long suffering, and without any quality of life, before dying. Not only is this difficult on the patient, but the family and friends must suffer too. the law has certainly proved effective in those states that have enacted it. I urge you to let the residents of Connecticut have the same opportunity.
