

Dear sir or madam

I am 75 years old and in good health. Nevertheless I have witnessed many of my friends and relatives suffer needless pain in the sometimes lengthy process of dying. They, like I, have expressed a great wish that it was not illegal to be able to terminate their lives in such circumstances. Many of us, at advanced age, feel that we have lived very happy fulfilled lives and do not feel that we have to eek out the last part of it in pain nor do we wish to cause our loved ones to have to be a part of our dying process. Please make it possible for us to make this decision for ourselves without state interference.

Thank you
