

Dear sir or madam, I am strongly against this bill and opposed to any legalized form of assisted suicide. These matters should solely be decided by the individual and family directly affected and not given any legal cover whatsoever. While I find the idea of assisted suicide morally offensive I also believe strongly that intervention of government in these sorts of matters brings more problems than it solves, has led our nation into a period of substantial moral decline, and a serious lack of respect for all human life. The taking of any innocent human life is an affront to the moral core of any civilized person or nation.

As a former hospice volunteer I know that the dying can pass on naturally, pain free, and peacefully through care and comfort services readily available in most communities. Please end consideration of this matter quickly and completely.
