

March 3, 2014

Senator Gerratana, Representative Johnson, and members of the Public Health Committee, my name is Jonathan Beale. I am 19 years old, live in Wallingford, CT and am currently a freshman in college.

I am writing this to ask for your support of Bill #5327, an act concerning health freedom and the practice of classical homeopathy.

Homeopathy has helped me tremendously throughout my life. I have used it for a variety of medical issues ranging from asthma, sickness, and even large cuts and bruises. I have suffered from asthma attacks in the past and homeopathic treatments have helped to speed up recoveries and hamper symptoms. I know that homeopathy has no side effects so I feel safe taking homeopathic remedies. They are easier to take and taste good too. I know that not only will homeopathy be the best combination with western medicine but it will be the more affordable way for Connecticut residents to get help. They will also save on their prescription drug fees.

More certified homeopaths is what Connecticut needs because it provides an option sick people deserve that is safer and more economical.

Thank you for your support of this issue.

Jonathan Beale
