

Attention: Senator Gerratana and Representative Johnson and members of the Public Health Committee:

I am from Newtown , CT and am writing this to testify on Raised Bill 5327: An Act Concerning Health Freedom and the Practice of Classical Homeopathy.

I SUPPORT THIS BILL!! and would like YOU to Support This Bill As Well!

Prior to and since my children were born I have been privileged to be aware of and use Homeopathic medicines and to find excellently trained and certified individuals in the State of Connecticut and surrounding states.

It has served us well. We are healthy and happy citizens of the State of Connecticut. We continue to use homeopathics when needed and have been fortunate due to our knowledge and opportunity to work with Homeopathic Physicians to avoid some of the devastating side affects of the allopathic excessive drug and surgical approach to medicine. We have chosen natural means of maintaining our health

(allopathy [ə'läpəθē]noun - the treatment of disease by conventional means, i.e., with drugs having opposite effects to the symptoms.)

My husband and I are in our mid-sixties and to the amazement of the allopathic physicians we may go to for a diagnosis, or a physical, we do not, and have never needed or taken any on going medications. This they have said to us is an anomaly. We think it is because we have had good counseling and support from the homeopathic and naturopathic physicians we see regarding healthy living and appropriate supplementation and homeopathy.

It is imperative that people have choices about how they care for themselves and who they choose to care and advise them. This is a democracy. A country of free people.

I am in favor of keeping the bar high by allowing nationally board certified classical homeopaths (CCH) to be able to offer their services in CT. The CCH is the highest level of achievement for professional homeopathy and the credential is recognized worldwide.

Many countries are far ahead of the United States in recognizing the value of Homeopathy, and its long, long history of successful treatment over many centuries.

Please support Raised Bill 5327: An Act Concerning Health Freedom and the Practice of Classical Homeopathy.
