

Suzel Cable HB 5327

Dear Lawmakers ,

I have used homeopathy for years .I started using them because of severe hay fever / allergies repeated sinus infections and bronchitis. I had tried allergy shots and many prescriptions and no relief .After trying homeopathy I found my symptoms greatly improved and the infections I was experiencing several times a year stopped all together . I only wish I had learned about them sooner .If more Homeopaths were available to practice they could help so many .

Sincerely ,

Suzel Cable
