Hello, I am a parent with an autistic son who will be 18 years old March 19. He needs assistance but his whole childhood I was told he doesn't qualify because he is not retarded. most of the time I can't get a return call. I my health isn't good and I wont be around for ever to help him. I fear he will be homeless if we don't get help I know he can do ok with assistance.
