

Donn Sottolano, Ph.D., BCBA-D HB 5558

Dear Chairperson and members of the Public Health Committee:

As a practicing board certified behavior analyst that works with children, adolescents, and adults with autism, I support HB 5558. Individuals with autism can present with significant clinical issues that require a range of professional supports. Without those supports the quality of their lives can be greatly diminished. With our support and training the person, family, and community will benefit.

Thank you for your time and consideration,

Donn Sottolano, Ph.D., BCBA-D
