

My name is Erin Carey, I live in Branford, Connecticut and I am a Board Certified Behavior Analyst. I support HB 5558 because individuals with autism do not stop needing services once they reach a certain age. In addition, severe behaviors are one of the hallmarks of autism spectrum disorders and through applied behavior analysis there is documented and repeated successes with treating these behaviors. It is prudent that our state allocate the resources necessary to assist these individuals, their families and their communities.

Thank you for your time,

Erin Carey BCBA 1-07-3370
