

Nancy Kerrigan Jarasek SB 36

To all Members of the Public Health Committee,

I have been an Advanced Practice Psychiatric Nurse treating Children & Adolescents since 1993, prescribing psychotropic medications for over 10 years, working collaboratively with the same wonderful Child & Adolescent psychiatrist over that period. Neither of us needs to be in this medical/legal limbo any longer. I will continue to consult him voluntarily whenever I need to. I graduated with my Master's in Psychiatric Nursing 47 years ago, been a psychotherapist for over 37 years. This terminal apprenticeship has to end before I retire.

Nancy Kerrigan Jarasek M.S., APRN., B.C.
