

Devin Lynch HB 5326

Dear Members of the Public Health Committee of the CT State Legislature;

My name is Devin Lynch and I am a Junior at Holy Cross High School in Waterbury, Connecticut. I am writing to urge you to vote NO on **H.B. 5236 concerning Assisted Suicide**.

I believe that life is a sacred gift from God, our Creator, and should be cherished and protected. Assisted suicide is a grave violation of God's law which forbids the deliberate killing of a human person. Euthanasia and Assisted Suicide seem to be compassionate way to deal with those, whom we love, but this is really a false sense of mercy.

Assisted Suicide is another attack by society against a culture of life, and leads instead to a culture of death. A society **AND** it's government that fails to protect a person's rights to life when he or she is most vulnerable and helpless, then **ALL** human rights are threatened!

I hope you read this message carefully and reply with CT government's thoughts.

Respectfully,

Devin Lynch
