

SUPPORT: House Bill 5326 – An Act Concerning Compassionate Aid in Dying for the Terminally Ill.

I support HB 5326, An Act Concerning Compassionate Aid in Dying for the Terminally Ill. I consider it to be inhumane to prolong the suffering of an individual who wishes to be relieved of suffering from painful, incurable illness. It is equally important for family members to know that they can respect the wishes of their loved ones without violating the law. Please support HB 5326.
