

To The Chairmen of the Public Health Committee:

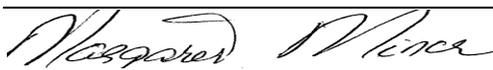

Sen. Terry Gerratana and Rep. Susan Johnson

And to the Honorable Members of the Committee

RE: RB 5326 AAC Compassionate Aid

Date: March 17, 2014, Public Hearing

This is personal testimony in support of 5326. I thank the Committee for raising this bill. The physician vows to do no harm, and, in my view (which includes death quite nearby), there is much harm in forcibly dragging out the misery of end of life. It's not natural or nice.
