

Shaw Stuart HB 5326

I am 84 years old and can't make it to Hartford for the hearing but would like my voice to be heard.

My dying friend looked up at me in pain and said "I want to die - what can I do?" All I could say was to get in touch with Compassion and Choices. I totally support physician aid in dying - why should selfish people deny this right with all its safeguards to suffering people? No one is forcing them to make this choice but to deny the choice to end live with dignity to those who qualify is cruel.
