

Senator Terry Gerratana and Representative Susan Johnson:

I feel that it is very important to support Bill #5327, An Act Concerning Health Freedom and the Practice of Classical Homeopathy [in Connecticut].

The operative words are "health freedom."

Classical homeopaths whom this Bill supports are very highly trained professionals. To begin with, they are MDs. The practice of homeopathy requires an incredible understanding of the nuances of health, so that it is truly a medical art. What is wrong with the patient is corrected by using the body's natural defenses, or natural leanings towards homeostasis, or health.

I consider it to be the medicine of the future, and in line with health freedom issues, I believe that it deserves to have an opportunity in Connecticut.

(I have utilized the services of a homeopath out-of-state. These services were very helpful to me.

(The treatment is so nuanced and superior that it is possible to get well without the side effects of allopathic treatments.) Please, support this Bill.
