

To Public Health Committee Members:

I am writing in support of Bill # 5327, An Act Concerning Health Freedom and the Practice of Classical Homeopathy.

I understand that previous laws are archaic and date from the 1920's. Clearly, medicine including complementary and alternative medicine has advanced tremendously since that time. Our practitioners need this bill to modernize their practice.

My primary physician is a Naturopathic doctor and this law can only expand her ability to deal with my health issues.  
I also wish to encourage the committee to support Classical Homeopathy which has healed me in many areas of my life and with my health issues.

Thank you for your consideration of this important matter.

Sincerely,

Nancy J. Ryan
