

Susan ODonnell HB 5327

"Good morning Senator Gerratana and Representative Johnson and members of the Public Health Committee."

I am Susan O'Donnell from Southport, CT and I am emailing my support on Raised Bill 5327: An Act Concerning Health Freedom and the Practice of Classical Homeopathy. I hope that you will find it favorable to support licensed homeopathy in CT as well.

I have used homeopathy as an alternative support to my health for the past two years. I think it is something of value to everyone as it addresses health issues without harmful drugs that carry a long list of side affects. I have been extremely happy with my experience and have been helped.

This is not to say that homeopathy replaces the medical profession but what it does offer are options.

It works alongside of other health options too i.e. acupuncture, and other alternative healthcare methods.

Access to homeopathy is limited in CT and for the most part it is necessary to go out of state for help.

It would be helpful to have trained, professional homepaths who are licensed right here in CT.

Thank you for considering my request,

Regards,

Susan ODonnell
