

To Whom it May Concern:

The A EMT provides a crucial service as an intermediary between paramedics and BLS responders. As a certified EMT in the state of Connecticut, I know how beneficial having A EMT can be, and the role they provide in the field. Eliminating the A EMT lowers the highest standard of care patients can receive and puts the health and safety of the citizens of Connecticut at risk. I am not sure how as a public official the latter is even a thinkable option. I hope you rethink your stance, and reconsider the value of the A EMT on the state as a whole.

Thank you,
