Subject: support

for Bills 5370 and 5369

I do not have much to offer physically to help park programs and activities but I do know where needs are and I think personnel are vital. At Hammonasset Beach State Park we have an amazing Nature Center with an equally amazing director, Russ Miller. He is so knowledgeable, polite and patient. He is woefully underpaid. I hope these and other bills on the collective State Park table will pass and make those workers who do their best, often more, an offer and some kind of assurance of their value.
