**COMMENTS REGARDING CONNECTICUT RAISED BILL No. 287:
An Act Concerning the Maximum Decibel Level at Movie Theatres**

March 3, 2014

Hello,

My name is Steve Menshell and I am a life time resident of Hartford, and have been in the theatre business for over 25 years. I am currently Managing Director of the Spotlight Theatre in Downtown Hartford. Our company, Spotlight Theatres, invested over five million dollars into the downtown development. With that large investment we make sure that our customers receive the best possible presentation. We continually do auditorium checks, where we are available to our customers if they have any questions or concerns. We also continually monitor their thoughts via our email comments. It is in our best interest to please all.

We do not feel believe that this matter needs to be legislated: it is a matter working well through voluntary standards.

Regards,

Steve Menshell
