**Subject:** Road "Salt" and Corrosion; Bill 5288

Nick, good morning,

I will not be able to attend the hearing on road treatment chemicals and their corrosive effect on vehicles, but I would like to take this opportunity to weigh in.

In both personal experience, and in conversations with friends in the auto repair business, there is no doubt in our collective opinion that vehicle corrosion has escalated to a higher level of destruction since the State has moved to the current road treatment chemicals.

I support the Bill: 5288 and will be very interested to hear the conclusions reached.

Sincerely,  
Richard Lowe
