February 28, 2014

To the CGA Transportation Committee,

I'm in support of Bill HB 5290:

In the event a motor vehicle is towed in Connecticut and not claimed within 48 hours, the licensee or operator of the wrecker or towing yard where such vehicle is being stored shall immediately complete a notice prescribed by the commissioner. A copy of this form must be sent by certified mail return receipt requested to the owner and all lien holders of record.

I'm opposed to bill HB5292:

This bill seeks to reinstate all expiration stickers on licensee plates in Connecticut. I feel this will increase theft and fraud of license plates. Expiration stickers are an out dated and unreliable way to validate the registration on a vehicle.

Best regards
