

To the Transportation Committee
March 3, 2014

I am writing to you regarding HB 5292 AN ACT CONCERNING MOTOR VEHICLE REGISTRATION.

Preston Leasing opposes this section of the Bill due to the lack of validity in the use of these stickers. They seem to be more of a problem than a benefit and as such is why the State ended the program in the first place. Please don't revisit this. It causes problems with theft and destruction of the license plates as thieves will cut the plates and steal the stickers. This theft adds a cost to everyone this happens to as new plates will need to be reissued. Again, we ask you not to support this part of the Bill.

Gary Bazzano
Vice President
Preston Leasing Corp.
