Subject: Please Support SB 336, the Vulnerable User Bill

To the Transportation Committee:

Please support SB 336, the Vulnerable User Bill, on March 5.

As an active bicycle commuter, I experience unacceptable motorist behavior on an almost daily basis. Unfortunately, I have also been hit by inattentive motorists while on my bicycle on two different occasions. On both those occasions, the police officer took no action beyond a warning to the motorist.

Having this bill would at least give me some leverage when I plead with a police officer to take some action and for the offender to know there are consequences besides a "talking to".

Thank you,

Joseph D. Anastasio
