Subject: Vulnerable Users Bill SB 336

Good morning,

As you may know, the Vulnerable Users Bill (SB 336) helps protect vulnerable users from injuries on the road from careless drivers. As a daily bike commuter, I am very aware of the dangers out there and this is a critical step to making our roads safer for all.

I urge you to vote this bill out of committee for passage by the legislature.

Thank you in advance for your support.
