Re: HB 5462: AN ACT CONCERNING SALES AND USE EXEMPTIONS FOR
TAX SHIPPING AND HANDLING CHARGES.

Dear members of the Transportation Committee,

We strongly support the passage of HB5462 concerning Sales and Use Exemptions for Tax Shipping and Handling Charges.

Dri-Air Industries ships our products throughout the country and Connecticut is the only one that levies a tax on the shipping charges. If the product is shipped from outside Connecticut, the customer does not have to pay a tax. In many cases, this puts Connecticut manufacturers at a disadvantage when doing business in their own state.

Please support HB 5462 to make Connecticut uniform with all of the other states on this issue.

Best Regards,

Charlie Sears, *president*
