To Whom It May Concern,

I am asking the Transportation Committee to approve and adopt Senate Joint Resolution #23. It is appalling to me, to see funds which are supposed to be used for repair and or upgrading our transportation infrastructure being misused. Yes, misused by directing those funds to cover the mishandling of funds elsewhere. ie our State Budget.

I recall when the State first approved lottery sales. Great! Wonderful everyone thought for the sake of better education

for the children. What has happened with those funds? Now education seems to be in need of more and more funds because the money is going into the general fund. Is this what we can expect to happen with the gas tax money supposedly earmarked for our roads and bridges? Then what, are we going to hear those infamous words again " we need to increase the gas tax because our roads and bridges are failing and we need to fix them". It's time to put a stop to the madness.....Please adopt SJ23

Thank You,
Stanley G. Graff
