

To the Environment Committee:

I am sending this email in support of Raised Bill 70. As a member of the Ridgefield Conservation Commission, I am very involved in conservation issues in town. While we do not directly oversee the state lands in our town, they are crucial to our overall quality of life. There are also substantial parcels of town open space that abut the state lands. So I am all in favor of this Bill, which will strengthen protection of the conserved land in Connecticut.

Sincerely yours,
Susan Baker
Ridgefield, CT
