

SB 72

Please ensure SB72 contains the following language:

Declare running bamboo a nuisance with a 40 foot setback on existing bamboo. (This is a buffer zone where bamboo, including its rhizomes, cannot exist.)

Please make every attempt to prevent bamboo incursions. My neighbor planted bamboo and it is unbelievably obnoxiously spreading. I'm afraid it will clog and infiltrate my septic tank as my efforts to stop its growth have not been successful. I have expended \$500 dollars to construct a root barrier that may or may not succeed. I'm sure bamboo could survive a nuclear blast; it is so hard to eradicate. Please include the above language that will proactively address existing border plantings.

Thank you.

Yours truly,

Gail K Reynolds  
Higganum, CT
