

SB 72

To whom it may concern:

I am a resident of Orange Ct and have been concerned about the overwhelming planting of bamboo though out the state and and in my own neighborhood. We all know how destructive this plant is, having the ability to destroy foundations and septic systems if left to grow unrestrained. Imagine the scenario of bamboo growing thru roadway asphalt and puncturing the tire of a vehicle causing an accident. Who would be liable for that fiasco. I think it would behoove the state to include in Bill 72 that running bamboo be considered a nuisance and that a 40 foot setback be required for existing bamboo.

Thank you for your kind attention to this pressing matter

Sincerely

Lawrence Messina
