

To the Environment Committee,

As a constituent of South Windsor, CT, I am writing in support of SB 445 regarding puppy mills. I urge you to help CT pet shops transition to a humane model of adoption by phasing out the sale of commercially-bred dogs in all current and future pet shops. Ethical principles of adoption are greatly valued by the public, leading to more successful businesses and less unnecessary animal suffering. Thank you for your time and consideration.

Sincerely,
Tim Saimond
