Dear Sirs:

Regarding the public hearing taking place today at 4:30 pm relative to the oil tax/  
guaranty fund let me offer the following comments:

1. I am the owner of Jerry Fuel, Inc. a family business operating since 1981. I take pride in the service(s) I provide my customers and I price my services both **REASONABLY** and **RESPONSIBLY**.
2. I **STRONGLY** do not feel I should have to absorb future costs due to the mishandling of less responsible Fuel Company's.
3. In today's economy every penny is worked hard for by small businesses, I am not in a position to absorb additional costs and would be **UNCOMFORTABLE** having to pass costs on the my customers.
4. **PLEASE** use my voice to help oppose SB 299 and work to find a solution that does not increase costs for small businesses and consumers.

Thank you for your time and attention to this critical issue.
