To Whom It May Concern:

HB 5303

For your information, I support this House Bill which supports immediate care for children with epilepsy and seizure disorders if they are affected in classrooms. I am a retired teacher from the State of Connecticut, and realize that a swift backup is needed, should a nurse not be immediately available when a seizure occurs. On March 17, 2014, I contacted my State Representative, David Rutigliano (R) to indicate my support for this Bill and to urge him to vote for it.

Sincerely,

*Ann M. Spencer*
