

Richard Doyle

I am an adult who was adopted in Connecticut in 1959. I have no information about my biological family, heritage, health history - even my own NAME! Please vote for Bill 5144 to unseal original birth certificates. As recent events have taught us again and again, secrets are usually harmful. Please bring some knowledge and peace of mind to adult adoptees who have a right to their most basic personal information. Thank you.

Sincerely,  
Richard Doyle
