HB 5537

March 12, 2014

Dear CT PHC Testimony,

Dear Senator Gerrata, Representative Johnson, and esteemed members of the Public Health Committee:

I write to ask you to strongly support and vote in the affirmative to add bill language for the modernization of the CT Naturopathic physician scope of practice to HB 5537. The language needs to be attached to this bill so it can come before the Public Health Committee for consideration. This Naturopathic scope of practice law is 90 years old and has not kept pace with the significant advances in education and training of Naturopathic doctors in the ensuing decades.

I am writing in support of CT Naturopathic physicians.. I feel that they are a great asset in our community and I hope they will be given the ability to practice with an expanded tool medicines and modalities. I feel that when a person is willing to make the necessary changes in their life to live a healthier life it is unfortunate that the ND can't use the same practices that other states have. Not everyone wants to settle for a quick fix. please consider the good they can offer if given a chance the same chance other states already have..

thank you
Jennifer

Thank you for your support and consideration.

Sincerely,
Jennifer Hazen
