March 12, 2014

Dear CT PHC Testimony,

Dear Senator Gerratana, Representative Johnson, and esteemed members of the Public Health Committee:

I write to ask you to strongly support and vote in the affirmative to add bill language for the modernization of the CT Naturopathic physician scope of practice to HB 5537. The language needs to be attached to this bill so it can come before the Public Health Committee for consideration. This Naturopathic scope of practice law is 90 years old and has not kept pace with the significant advances in education and training of Naturopathic doctors in the ensuing decades.

I, my late husband Robert Breer, and our daughter Sally Breer have all benefited enormously from naturopathic care over the years, often when allopathic medicine had no answers for us. Please take the time to bring this practice of medicine into the 21st century.

Thank you for your support and consideration.

Sincerely,  
kate flax
