HB 5537

March 12, 2014

Dear CT PHC Testimony,

Dear Senator Gerratana, Representative Johnson, and esteemed members of the Public Health Committee:

I write to ask you to strongly support and vote in the affirmative to add bill language for the modernization of the CT Naturopathic physician scope of practice to HB 5537. The language needs to be attached to this bill so it can come before the Public Health Committee for consideration. This Naturopathic scope of practice law is 90 years old and has not kept pace with the significant advances in education and training of Naturopathic doctors in the ensuing decades.

to whom it may concern, I wanted to let you know that if it was not for the naturalpaths I would have not been able to get all the toxins out of my body from lyme. I can't take antibiotics so this was the only way I could of gone. I know that if it wasn't for them I would be dead. I have a lot of issues from the lyme and they have helped me thru it and I am finally feeling better and gaining weight back. Please support the naturopathic phusican scope of practice HB5537, it is very important to me and my health.. Thanks for listening, Lorayne Beinke

Thank you for your support and consideration.

Sincerely,
lorayne beinke
