### Explanation of State Impact of Regulation:

No fiscal impact is anticipated. The Department of Consumer Protection already licenses and regulates the system of electronic drug records, as well as medical providers who administer prescription drugs. The proposed regulation merely adds a new category of provider to the existing regulatory framework, namely those persons defined as "medical practitioners." This will not cause an administrative burden or add additional costs to the Department.

### Explanation of Municipal Impact of Regulation:

No impact on municipalities is anticipated. The Department has jurisdiction over these regulations.

### Explanation of Small Business Impact of Regulation:

There is not expected to be any negative fiscal impact on small businesses. Please see the Department's Small Business Impact Statement for more details.
