

Appropriations Committee Higher Education Sub-Committee

February 24, 5015 Testimony for Public Budget Hearing for Board of Regents for
Higher Education

Good evening Senator Bartolomeo and Representative Willis. My name is Ivan
Wilson and I am student in Manchester Community College's REACT program.

The things I like most about the React program are listed as followed, I like all the
new interesting teachers, faculties, administrator's I'm meeting they let me to
open my mind to learning an education that would last me for the rest of my life, I
like all the new classmates I've meet and studied with which is almost like family,
I like the idea of maybe one day finally being able to complete something without
giving up, I like the idea of having a goal's set for achievement which is really
cool knowing that I have a project to complete at the end of a classes meaning
homework gives me something the motivation to strive for being that I'm not
working at the time, I would say February 02, 2015 was a new beginning for me
that I really couldn't see or understand which seemed like a blur in my eyes all
because I didn't know which route I was taking or going, I just want to get it right
and move on to the next level in my life that's my plan and success lies ahead
with the React program. I hope you will keep this program going as it is a very
important part of my life right now and my future . This is a good opportunity for
many people to try and get a better path in their life.

Thank you for your time tonight.
