

Dear Congress and Senator,

I have been attending Norwalk Community College and I got to say education in any shape or form is important in many ways in this generation. Unfortunately, there is a sad reality that many can not attend school due to the high cost of tuition, and therefore it becomes even more difficult for someone like me to pay back a loan with high interest. My name is John and i'm going to briefly tell you about my story. I want to transfer to a 4 year state college, my grades are excellent and my drive is ever-passionate, however, scholarships can't pay for everything. Money should never be an obstacle for an American citizen when it comes to paying for college, but if education becomes more expensive than what already is, money trully becomes a "Dream Eater". I'm petitioning for a change, not like how it was before, rather a new one that could help me get through college fincancially wihtout bearing the thought of expensive costs and punishing debts. Make a change that will help someone like me be able to afford attending University of Connecticut.

Thank you,

Sincerely,

John M Perez.
