

As a mother of two children 5 and 2. C3 is amazing. I have here'd of C3 because my daughter was is Head start in Colchester and my son is in Early head start. C3 has so many classes that we have attended and parent workshops that I and my kids father have attended and has helped so much. The opportunity to meet other parents and kids. Kids play and make connections with others and create a friendship at such a young age it's amazing.. The classes my son an I attended at such a young age , sign an play, music an movement, power play my son picked up sign language so quick an is still using sign language For more then a year now he looks forward to these classes and is such a bonding aspect for parents and children as we are our children's first teacher early childhood councils are providing valuable information for parents to do our best. The workshops we have attended in the evening is great and accommodate childcare for both parents to be able to attend and has dinner for everyone. I cant preach enough how this program is so amazing and so helpful all around and it would be such a shame for all these kids and parents that look forward to theses activities .

Sincerely

Amanda Ruggieri
