**Subject:** library cuts

It is obvious that the state of Connecticut must make budget decisions which are at times negative. However cutting funding which impacts on the relationships of one library to another will hurt small town libraries. Here in the town of Wolcott it is necessary to borrow from other libraries to provide materials needed especially by students. Sharing is also the only way a library can provide enough of the same book to facilitate book clubs. Hopefully current funding can remain in tact, or if necessary, be reduced by a small margin. I am not employed by the library but speak here as a patron of it. thank you. Judith Ball 13 Farmingbury Rd Wolcott 06716
